Ballytegan Rd, Gorey

A stunning development of **Smart & Efficient
Family Homes** in Gorey, the heart of the South East

www.liveinwexford.ie

"Gleann an Ghairdín" translates as **Garden Valley** and is Gorey's newest community

At the Wexford Low Energy Homes family, we have been building communities for over 25 years. Our philosophy is simple: from the foundations to the final brush strokes, we pride ourselves on our professional manner.

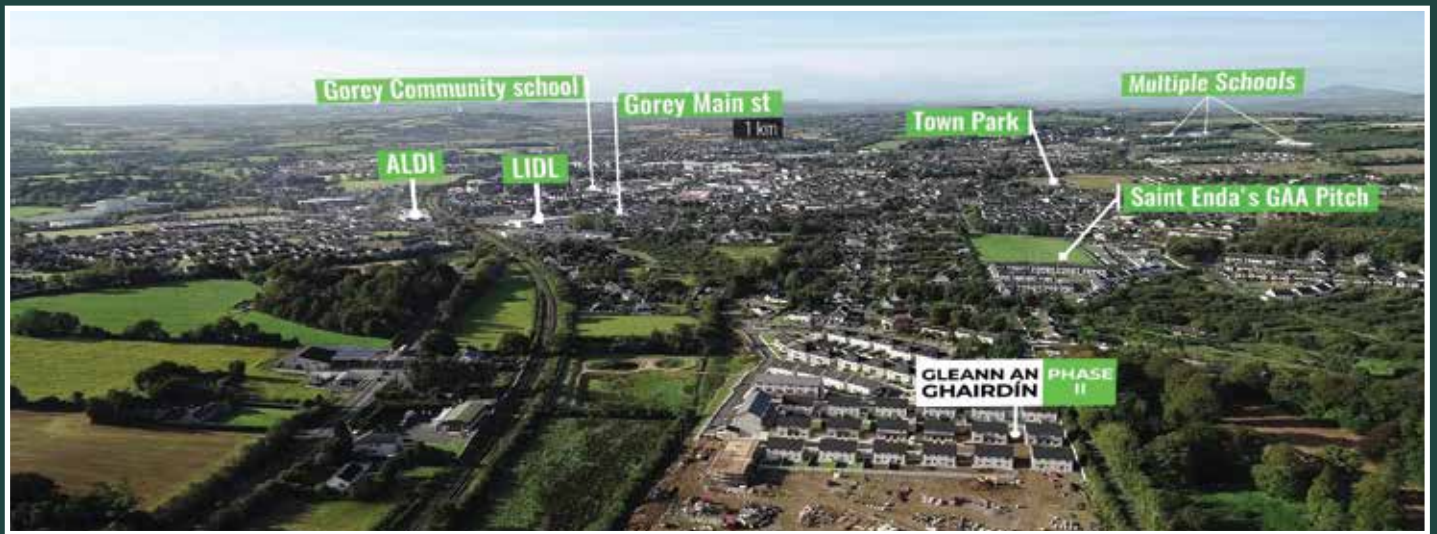

We build traditional, robust, low-maintenance and highly efficient homes, designed perfectly for the Irish climate. And we are the only developer offering Gigabit Fibre Broadband in all our homes from day one. We know what matters to you! Teaming up with some of the most progressive companies, we can offer you a complete turn-key solution with smart homes technology, interior design, landscaping and even financing available.

And it's not just about your home but also your new community, we ensure all the infrastructure and landscaping, along with lighting, paths and roadways are completed to the highest standards.

Our commitment to you, is to deliver a Home that will exceed your expectations.

Dan Morrissey

Dan Morrissey – Managing Director

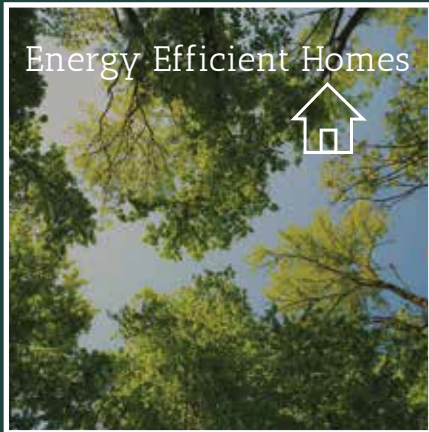

Great Location – Gorey, Co. Wexford

Gorey is a market town on the south east coast full of charm and character and with easy proximity to Dublin and Wexford. Gleann an Ghairdín feels like it's in a rural location but is only a 10 minute walk to Gorey's Main Street. Pass Lidl and local shops along the way and there are several nearby schools, crèches and sports clubs. Historical towns such as Courtown and Ferns are only a short drive away, along with many blue flag beaches.

The town of Gorey is bustling with cafés and restaurants and gorgeous boutiques and shops offering everything you could want for easy living. And the recreation facilities are second to none, with world class golf courses, GAA, Rugby and Soccer clubs all close by. And the rolling hills which overlook Gleann an Ghairdín offer fantastic walking and hiking.

What Makes a Wexford Low Energy Home Different

As our name suggests we're all about bringing the best technology to our homes to ensure they not only save you money, but also have a much more positive impact on the environment. From the renowned Grant air-to-water heating system, and superior water tank "fridge" technology, to our exceptional seals, zoned thermostats, and super-insulation we will ensure you're always cosy.

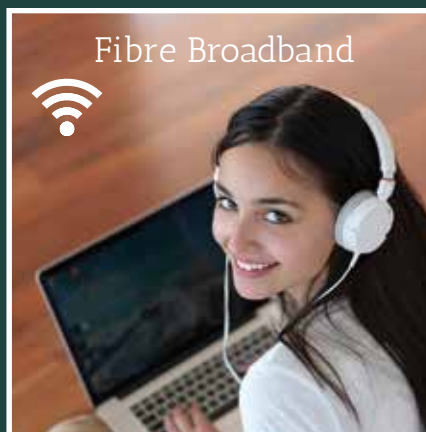

Utility costs are kept to an absolute minimum in a Wexford Low Energy Homes home with our host of energy efficient features not only saving the environment but meaning less monthly expenditure on utilities too! Combined with a smart thermostat and lighting you won't believe the savings!

All our homes come with Smart Home options offering you and your family the latest in smart security, lighting, sound, entertainment and connectivity. The suite of Google Nest products from a front door video bell to movement sensor cameras inside and outside and lighting solutions, all available to control from your phone - wherever you are.

We use only the best block construction and all our homes are nZEB (near Zero Energy Buildings) ensuring the best in energy efficiency, soundproofing, warmth and comfort. We are members of the Irish Home Builders Association .

Wexford Low Energy Homes work hard with SIRO to ensure that high speed GB broadband is available in the developments.

The beautiful sunny South East has everything you could ask for in a place to live. Vibrant towns, long sandy beaches, rolling hills and welcoming communities. Offering both accessibility to the cities and the relaxed atmosphere of a town.

Turn Key Options

All Wexford Low Energy homes are available with the following extra features, all installed before you turn the key for the first time. Meaning you can settle into life in your new home straight away.

Smart Living

Your home will be set up with high speed broadband before your arrival but why not maximize the opportunity this provides by adding some of the superb Google Nest and Phillips Hue smart technology to make your home work for you! Our partner Model Homes can provide lighting that responds to your voice, security cameras and video doorbell that can be seen from your phone, and remote heating controls from wherever you are. Or connect to all your electronic devices in your home with a touch of a button from anywhere at any time!

Financing

We've teamed up with Complete Financial Solutions to assist you in finding your perfect financial partner when purchasing your new home. This experienced company has helped thousands of clients move into their new home offering guidance and excellent financial options.

All our homes qualify for the First Time Buyers Grant and we can help guide you in applying for this fantastic support now the scheme has been extended.

Interior Design

Lisa Rossiter from Rooster Designs is our partner Interior Designer and has a superb reputation and incredible eye for detail.

She offers a fantastic range of services to help guide you through creating the perfect ambiance for your new home.

Landscaping

Our Landscapers All Season Landscaping have years of experience with new homes and are excellent at planning the perfect outdoor space for their clients.

Whether it's a play garden or a tranquil retreat space they can provide all you need.
