

THE PARK OCCUPIES A STRATEGIC POSITION ON IRELAND’S EASTERN SEABOARD, APPROXIMATELY 4 KM SOUTH OF DUNDALK TOWN CENTRE, MIDWAY BETWEEN DUBLIN AND BELFAST.

The park enjoys excellent road access, situated just off the N52 and about 2 km from the M1 Motorway linking Dublin and Belfast. Dundalk is positioned roughly halfway between the two cities—80 km north of Dublin and 90 km south of Belfast—making it an ideal location for logistics management along the M1 Corridor.

Current occupiers within the park include Xerox, PayPal, and The Advanced Manufacturing Training Centre of Excellence. Nearby, other prominent businesses and institutions include WuXi Biologics, MSD, Pentagon Technologies and PCI Packaging, and the Dundalk Institute of Technology creating a strong cluster of technology, manufacturing, and life sciences activity in the area.

Typical Occupiers

- IT Firms & Software Development Companies
- Engineering and R&D Teams
- Logistics and Wholesale Distributors
- Pharmaceutical & Medical Technology Companies
- E-Commerce Fulfilment Centres
- Light Manufacturing & Assembly

Transport Links

- Dundalk benefits from easy access to the M1 motorway, connecting to Dublin and Belfast—key for commuting and logistics.
- Dundalk railway station provides direct services to both cities.
- Local and regional buses (e.g., Bus Éireann) serve the area, connecting to towns and cities nearby.

The property is a detached manufacturing facility of steel frame construction extending to a gross floor area of approximately 113,089 sq.ft. (10,506 sq.m)

The building comprises a metal deck roof, reinforced concrete floors and an aluminium-clad exterior. Warehouse access is provided via 6 dock levellers and 3 grade-level roller shutter doors.

The warehouse offers clear internal heights of approximately 7.5–11.5 metres, with a reinforced concrete mezzanine area served by two industrial lifts. A secure loading yard to the rear and side provides a depth of approximately 35–48 metres, accessed via electric gates.

Two-storey office accommodation is located to the front, mainly open plan with meeting rooms, locker rooms, showers, toilets and canteen facilities. Offices are finished to a high standard with plastered walls, suspended ceilings and recessed lighting.

The site includes extensive front car parking, potential for additional parking, and a wraparound access road providing strong HGV circulation. Substantial mechanical and electrical infrastructure supports advanced manufacturing, processing and industrial uses.

Level Area	Description	Size (SQ.M)	Size (SQ.FT)
Ground Floor	Warehouse	6,046	65,083
	Office	950	10,227

THE PARK OCCUPIES A STRATEGIC POSITION ON IRELAND'S EASTERN SEABOARD, APPROXIMATELY 4 KM SOUTH OF DUNDALK TOWN CENTRE, MIDWAY BETWEEN DUBLIN AND BELFAST.

The park benefits from excellent road connectivity, lying just off the N52 National Primary Route and approx. 2 km from the M1 Motorway, the key arterial link between Dublin and Belfast.

POWER

The campus is built to cater for energy intensive operations. The site comes with the benefit of a direct supply from the Eirgrid Transmission System (Mullagharlin 110kv Station) which is located only 500m from the Technology Park.

ALL MAIN SERVICES, INCLUDING, WATER, ELECTRICITY, DRAINAGE AND FIBRE CONNECTIVITY, ARE CONNECTED TO XEROX TECHNOLOGY PARK.

GAS

Available direct from Bord Gais Energy

Power

The campus has an MIC of 6.5 MVA available, with ESB Networks Demand Capacity Heatmap indicating a further significant capacity available in the 110kV substation (May 2025).

Fire Protection

The property has a full fire sprinkler system together with two rain water storage tanks to the rear.

Fibre Connectivity

The Campus has direct fibre optic connectivity with multiple national commercial fibre networks connected to the park or adjacent to the property.

Security

The park benefits from remotely monitored CCTV coverage throughout, along with a security hut at the entrance, which is controlled by a barrier system.
